OF THE PARK
INSIDE

MAIN ENTRANCE

Some weird, wild, and wonderful creatures live down in the vast ocean blue. And oh what fun they have! They flex their fins, catch the currents, and before they know it, they are at the glowing entrance to the Undersea Amusement Park. And look – it's about to open!

A FREE RiDE

If you are a small fish with aching fins, manta rays will take you all around the park for free by means of special suckers. This doesn't harm the rays. In fact, it cleans their skin.

SNOOTY TOUGH GUY

How rude! The hammerhead shark hates lining up for tickets. Look at him cutting in front of the smaller fish.

WELL-HIDDEN VALUABLES

Who better to look after your valuables than the pearl oyster? These saltwater mussels make pearls with "mother of pearl" – a glittering material inside their shells.

RADIANT BEAUTY

The entrance is unmistakable, thanks to a rare species of luminous algae that use their light to scare off potential aggressors.

WELCOME TO OUR AMUSEMENT PARK!

FAMILY FROLICS

At any amusement park, it's always great to start with a fun family ride. Whether you are large or small, finned or tentacled, a merry-go-round will make your head spin, and a swing will help you aim high!

A SAFE HAVEN

Little cardinalfish rush to the merry-go-round from their dad's mouth – where they have lived in safety since they hatched.

cardinalfish

seahorse

VERY CARING DADS

These little seahorses on swings are watched over by their loving dads, who carried them in their bellies and have cared for them since birth.

UNDERSEA FLIERS

These flying fish flee attackers by leaping out of the water. Their broad fins spread like wings as they glide off into the distance.

European squids

TRAVELING TOO FAST

Oh dear! These frightened European squids sure aren't enjoying their ride on the dragon train. Just look at all that ink they're squirting!

WHIPPERSNAPPER PARADISE

If your young ones are too little to enjoy a rollercoaster, take them to the safe zone. Only a dozen feet below the surface, it's lit by the sun.

AIR-FILLED, PRICKLY FISH

When in danger, these guys puff themselves up with air and float around like fairground balloons.

pufferfish

loggerhead sea turtle

corals

THE LOVELIEST PLAYGROUND

There is light and clear water in a coral reef. With its many slides, hiding places, and climbing frames, it is also the best playground imaginable!

SAND LOVERS

When they play in the sand, pairs of blenny fish love to hide in the sea floor!

blenny fish

CORAL PROTECTORS

For many sea animals, coral reefs are vital. Thankfully, the loggerhead sea turtle is around to protect the corals by eating the jellyfish and sponges that harm it.

COMPETITION ZONE

Every good competitor should check out this part of the park. Those who don't wish to compete can cheer on their favorites!

IT'S ALL ABOUT SPEED

In the undersea world, mackerel are famous for their speed and constant motion. In the frenzy, it's hard to tell who the who's in the lead.

GO!

salmon

OBSTACLE RACES

Next, let's go cheer on the salmon on their obstacle course. They always swim upstream against the current and can even hop over a dam in a river.

BUMPER RAYS

After the mackerel race, you can unwind by watching jolly manta rays jostle and bump about.

manta rays

ROCK CLIMBING

Sea snails are amazingly strong. They may climb rock walls slowly, but they never give up or fall. Who can match their endurance?

sea snail

ENDLESS HEIGHTS

Are you the adventurous type? Our attractions test the bravery of the very boldest.

PACKED LIKE SARDINES

The Ferris wheel's cabins are bursting at the seams with sardines – fish known for packing themselves together in huge schools.

FINS FLAPPING

Tub gurnards love riding on the roller coaster! As they speed along, they flap their broad fins, waving to everyone.

krill

THE DROP TOWER

When the cabins drop from a great height, everyone shrieks with delight! The passengers on this ride are small crustaceans called krill. By day, they hide in the darkness of the deep. By night, they hunt up on the surface.

PHOTOS AT ALL LEVELS

The giant squid takes photos of visitors at the drop tower ride. The ride looks like a child's toy next to her – that's how huge she is!

WITH
FACTS ABOUT
**UNDERWATER
ANIMALS**

COME AND SEE ...

what it would be like if sea creatures of the deep ocean were to build a giant amusement park! Just imagine cuttlefish stamping each visitor's fin with an ink mark at the entrance. Turtles supervising the playground in the coral reef. Mackerels racing on a racetrack. Sardines crowding into the cabins of the Ferris wheel. And if anyone gets tired, they can ride on a fun-loving manta ray ... During your visit to our underwater amusement park, you'll learn a lot of fascinating facts about sea animals – and have a fabulous time while you're at it! And to help you keep your bearings, this book even includes a large map of the park!
